Sir:

Responsive to the Election Requirement dated November 1, 2004, Applicants elect the invention of the species A according to Figs 4, 6 and 9, for further examination. Claims 1-3 and 5-16 read on the elected embodiment. By making this election and selecting these claims for examination, however, Applicant does not restrict the scope of the listed claims to only the features of the exemplary embodiment shown in Figs. 4, 6 and 9. Rather, these claims may also read, for example, on other exemplary embodiments described in the specification, and should be afforded the broadest scope allowed by the relevant prior art.

Applicants traverse on the ground that the species are not patentably distinct.

Examination of the application on the merits is respectfully requested.

Respectfully submitted,

By
